

The main toolbar is active in ALL views.

## Blue Law

Blue Law is used to prevent sales of specific items during specific times.

- 1) In main accounts views click on the 'Blue Law' button.

A / R	Category	Collection	Deal	EOD	InvenCount	MOP	Prod Code	Tank Charts
A/R Invoice	Chart/Accts	Contacts	Dept's	EOD Gas	Master	Notes	Purchases	TimeCard
Blue Law	Checks		Employee	FeeCharge	Menu	PLU	Softkey	

- 2) It will bring up the records in browse mode.
- 3) There should be 2 records already there. Click one, and then click on the edit button.

Edit Record: Blue Law

of 2

- 4) Example
  - a. First label this either Blue Law 1 or 2
  - b. Say you want to put time restrictions on when you can sell liquor.
  - c. The restrictions are, you can only sell liquor between hours of 8:00 AM and 2:00 AM everyday except for Sunday. On Sundays you're able to sell liquor between 12:00 PM and 3:00 PM
    - i. In the restriction column mark a 'Y' if you would like to put a restriction for that day.
    - ii. Starting on Sunday ... In the 'First Start Time' enter 12:00 AM
    - iii. In the 'First End Time' enter 2:00 AM.
    - iv. In the 'Second Start Time' enter 12:00 PM.
    - v. In the 'Second End Time' enter 3:00 PM.
    - vi. Any other day your 'Second Start Time' would be 8:00 AM and your 'Second End Time' would be 12:00 AM
    - vii. The reason we do it this way is because, if you can sell liquor from 8:00 AM on Sunday, it would go until 2:00 AM on MONDAY.
